CALENDAR
OF EXPIRING COLLECTIVE AGREEMENTS

1983

FOREWORD

The Calendar of Expiring Agreements is a compilation of major collective agreements in British Columbia which are scheduled to expire in the coming year. The publication includes those expiring agreements which cover 25 or more employees.

The total number of agreements and employees covered by expiries listed in the Calendar likely understates to some extent the bargaining activity to be expected during 1983. First, it is not possible to anticipate bargaining which will arise from first-contract negotiations where a trade union has been newly certified by the Labour Relations Board. Second, at the time data for the Calendar was being assembled in November 1982, a number of collective agreements were in the process of being re-negotiated. Some of these renewed agreements will likely expire in 1983, but at the time of publication it was not known which of them will be up for negotiation again in the coming year. A revised list of upcoming expiries is published each month in the Labour Research Bulletin.

The information contained in the Calendar was compiled by Fern Hegan and typed by Sheila Twilley and Sandy Ritchie, all of the Program Services Branch. Our thanks are extended to employers and unions who co-operated in providing expiry information to the Branch.

INTRODUCTION

A total of 554 collective agreements covering 25 or more employees will expire in British Columbia during 1983. These expiries cover 268,355 employees in the province. The number of expiries scheduled to be renegotiated is slightly fewer than the number reported in the 1982 Calendar (585), but these cover about 14% more employees than did last year's list of expiries (235,787).

The largest expiry in 1983 is the master and component agreements between the Government of British Columbia and the BCGEU covering 35,416 employees. This fifteen month agreement terminates on October 31, 1983. The school district agreements between the B. C. School Trustees Association and the B. C. Teachers' Federation covering a total of 30,864 teachers expire on December 31, 1983. The two-year agreement between the Forest Industrial Relations Association (Coast Master) and the IWA covering 28,000 workers runs out in June 14, 1983 and a number of other major wood industry contracts also expire in the same month.

Three quarters (75.3%) of the collective agreements expiring during the coming year are two-year contracts which have been in effect since 1981. There are 417 twenty-four month agreements up for renegotiation (See Table 1). The proportion of expiring two-year agreements in 1983 is below that shown in the 1982 Calendar (81.5%), but well above the corresponding figure for 1981 (64.9%). The number of employees covered by expiring two-year agreements is 171,128, or 63.8% of the total for 1983. This proportion compares with only 49.8% of employees covered by expiring two-year agreements for 1982 and 65.2% in 1981.

The two months in which the largest number of collective agreements are scheduled to expire are March and April which each have 96 expiries. The next busiest month on the bargaining calendar is June with 81 expiries (See Table 2A). About 70% of the expiring agreements will run out by mid-1983.

The industry group with the largest number of expiries in 1983 is Trade and Service with 245 agreements covering 111,084 employees. The Manufacturing sector has 213 expiries for a total of 101,056 employees.

Table 3 of this Calendar contains a chronological list of 1983 expiries by month. Individual expiries are listed by industry in Table 4. Provincial Crown Corporations are listed separately in Table 4, but are classified by type of industry for the industry statistical breakdown in Tables 2A and 2B. Collective agreements which come under the jurisdiction of the federal government are denoted by (Fed) following the name of the employer. Employee totals for federal jurisdiction expiries include only employees in British Columbia.

Below is a list of major collective agreements due to expire in 1983 which cover 500 or more employees.
